

STATE DEMOCRATS HOLD CONVENTION

Go On Record in Favor of Eight Hour Day for Men and Women

TAKE SLAP AT LOWDEN

Advocate Legislation to Compel Sleeping Car Companies to Pay Employees Living Wage

FAVOR EQUAL SUFFRAGE

SPRINGFIELD, Ill., Sept. 26.—The Democratic party of Illinois in convention here today went on record in favor of equal suffrage for women, the eight hour day for both men and women workers engaged in non-agricultural pursuits, a compulsory workmen's compensation act, and took a slap at the Republican candidate for governor by advocating legislation that will compel sleeping car companies to pay their employees a "sufficient wage," and a corrupt practices act that will prevent the state primary from being "a rich man's game."

A request by organized labor that the platform advocate an amendment of the existing workmen's compensation law to make it include insurance for injured workmen, was not complied with, nor was the request for an anti-injunction law. Both of these planks, together with the eight-hour law and compulsory compensation, were urged on the resolutions committee by John H. Walker, president of the Illinois Federation of Labor, in a hearing shortly before the convention convened.

The plank affecting sleeping car companies was attached at the eleventh hour as the committee was about to bring forth its report. Col. Frank O. Lowden, Republican gubernatorial candidate, is a member of the Board of Directors of the Pullman Sleeping Car Co., virtually the only company operating sleeping cars.

In a plank entitled "invisible government," the platform refers to "the enormous expenditure of money in behalf of the successful Republican candidate in the late primary campaign, a sum beyond all reason and in violation of the spirit and purpose of the primary law, which was designed to give the people a free hand in the choice of their candidates."

This expenditure of campaign money, the platform says, "is evidence of the efforts of the large corporation interests to govern the affairs of the people of Illinois at the state capital."

This plank contained the name of Col. Lowden in the finished draft, but his name was stricken out just before the committee's report was placed before the convention.

The platform also favors a provision for a state constitutional convention.

For the first time in the history of Illinois political parties a woman was nominated as a presidential elector and a woman addressed a party convention. Mrs. Catherine Waugh McCullough, of Evanston, Ill., was named with Reed Green, of Cairo, Fred T. Scherer of Ottawa, and L. O. Whitnel, of East St. Louis, as elector-at-large.

Mrs. George Bass of Chicago, chairman of the woman's committee of the Democratic national headquarters in Chicago addressed the convention at the request of Chairman Lucey. She declared the woman's vote would decide the presidential contest in Illinois.

The convention nominated Edward C. Craig, of Mattoon, George T. Page of Peoria, and Mrs. Hannah Solomon of Chicago for trustees of the University of Illinois.

While the convention was awaiting committee reports, candidates for state offices addressed the delegates. Congressman Scott Ferris, of Oklahoma, and Congressman Wm. Eliza Williams, of Pittsfield, Ill., also delivered speeches.

PICK UP FOUR OF CREW

Oswego, N. Y., Sept. 26.—Four members of the crew of the steamer Norbervall, of Ottawa, which foundered yesterday in Lake Ontario, nine miles from here, were picked up late today on an improvised raft, after being batted by the sea for twenty hours without food. Two others reported missing were seen in a yawl forty miles from here near the Canadian shores, it was reported tonight. This would indicate that no lives were lost in the disaster.

OHIOANS WELCOME CANDIDATE HUGHES

REPUBLICAN PRESIDENTIAL NOMINEE HEARD IN EIGHT ADDRESSES

Crowds at Station all Along Railroad Line—Issued Challenge to Administration to Deny His Charge That Order Was Made to Eliminate Huerta One Way or Another.

Cleveland, O., Sept. 25.—Charles Mr. Hughes issued his challenge to the administration to deny his charge that John Lind was authorized by President Wilson in 1914 to say to "the minister from a foreign power to Mexico" that Huerta would be "put out" of the presidency of Mexico, if he did not voluntarily get out.

Mr. Hughes issued his challenge in a speech here before an audience in the Central armory. In the same speech, Mr. Hughes lauded Myron T. Herrick, sitting on the platform with him, for the manner in which he discharged the duties of ambassador to France in the early days of the war, and declared that the appointment of a man to succeed Mr. Herrick "in a time of great emergency" would "ever remain a blot upon the present administration."

Eight Speeches During Day
The nominee's speech here tonight was the last of eight delivered on the second day of his campaign thru Ohio. Among them was an address at Toledo before employees of a large automobile plant, during which a number of workmen he addressed cheered repeatedly for Wilson. This meeting closed with a volley of questions from the edge of the crowd prompted by his attack on the administration for the Adamson law and by uncompromising reference to the nominee himself.

"What about the Danbury Hatters' case?" was the chief question. One man started it, others took it up and when the nominee closed his speech the words were echoed by many voices. Mr. Hughes heard the commotion and thinking that it came from men on the edge of the crowd that had not heard his reference to the Adamson law, said:

"If you will tell my friends over there what I have said, I think they will understand my views."

Later Mr. Hughes said he had not heard the reference to the Danbury Hatters' case.

Adamson Law Attacked

In his second address at Toledo and in his speech here tonight, Mr. Hughes renewed his attack on the administration for the Adamson law, and declared that it was the duty of the executive to stand "like a rock" for the principle of investigation before legislation and not to surrender to force. At both Toledo addresses and here he was cheered and applauded.

Mr. Hughes' challenge to the administration was part of his attack on the administration for its Mexican policy.

"We cannot maintain our just influence on this hemisphere in connection with our sister republic unless we are correct in our international attitude and careful and correct in our international policy," he said. "That is the deplorable thing about the conduct of our affairs in Mexico. We have followed no intelligible policy. We have won the friendship, but rather lost the friendship, of those who are in the sister republic of Mexico torn by disturbance."

Quotes Wilson on Mexico

Mr. Hughes quoted a statement by President Wilson referring to Mexico, saying "we have professed to believe that every nation, every people has the right to order its own institutions as it will, and we must live up to that profession in our actions in absolute good faith."

"That is the principle," Mr. Hughes added. "I deeply regret that that principle was not followed."

"I have here the statement of the policy of the administration as it was set forth in the early part of April, 1914. John Lind was authorized to make this statement to a minister representing a foreign power in Mexico: 'Huerta will be put out if he does not get out. That it is the preference of the President that it be accomplished by domestic means if possible, but if it cannot be done by domestic means, other means adequate for the purpose will be resorted to.'"

Personal War on Huerta
"That is a declaration of personal war upon Huerta to be carried to the conclusion of elimination, despite the statements that we have made and the representations that we were to recognize the sovereignty of Mexico and not attempt to interfere in the conduct of her affairs."

"Now I referred to this the other night, and a leading organ in New York City, which is a very strong supporter of the administration, at once inquired thru its representatives whether or not that statement would be denied. According to the report in this newspaper in New

WANT NEUTRALITY LAWS REVISED

Mexicans Make Suggestion at Conference in New London

EXPECT RAPID PROGRESS

Session First of a Series in Which Forms of Co-Operation Will Be Considered

FIND BODY OF U. S. SOLDIER

NEW LONDON, Conn., Sept. 26.—Revision of American neutrality laws with a view to discouraging Americans from participating in Mexican factional conflicts, was suggested at the conference of the Mexican joint commission today. It was indicated that Mexico would be able to deal more effectively with rebels and ordinary bands of outlaws if the neutrality laws were amended in such manner as to make it an offense for an American citizen to participate in any way in a movement against a government with which the United States is at peace.

The Mexicans charged that the inadequacy of the American laws made possible the propagation of conspiracies on American soil against established order in Mexico. The American representatives also called attention to the causes in which the Mexican neutrality laws or their enforcement was at fault.

The American commissioners submitted a list of border raids that had been compiled by the war department. The Mexican commissioners countered by the presentation of another list specifying instances where American soldiers of civilians had crossed the boundary into Mexico.

It was said that today's session was the first of a series in which it was expected the various suggested forms of cooperation between the two governments in preventing border disturbances would be considered. More rapid progress in the direction of an agreement on some plan of border control is expected to be made now.

Find Mutilated Body of Soldier

El Paso, Tex., Sept. 26.—An unidentified American soldier's body, badly mutilated, was found near El Valle yesterday, according to a report which was brought here from the punitive camp in Mexico today. It is believed that the body was that of an American trooper of the Fifth United States Cavalry, who took part in the saloon brawl at El Valle last Friday night and who was missing when the seven other troopers reached the field base at El Valle, following an encounter between Carranza soldiers and the American troops, when a Carranza sergeant is said to have been killed.

Wholesale executions are taking place in Chihuahua City following the Villa attack it was announced at military headquarters here today. Five hundred Villa adherents have been executed since the fight, the report to Gen. George Bell, Jr., states and many other prisoners have been taken.

At military headquarters here today it was stated that all the information available from the intelligence officers reporting to the El Paso headquarters indicated that Villa was preparing to make another attack on Chihuahua City. It was also stated that the date when the Chihuahua City attack is expected to be made is known but withheld for military reasons.

Carranza consul and the military authorities denied having any information regarding Villa's reported movements northward.

York it was said that the charge would be answered by the secretary of war perhaps, or by the secretary of the navy. It did not say that it would be denied. It made the ambiguous statement that it would be answered. I have read that as a statement of what John Lind was authorized to say to a foreign minister, and I now challenge the administration to deny that authorization was given."

The Herrick Dismissal
Mr. Hughes referring to Mr. Herrick, said:

"I want to say in this presence, that we have had no diplomatic representative reflecting greater credit upon the country than Myron T. Herrick, the next senator from Ohio. I say that at a time of war to have this country represented in any foreign capital of a belligerent nation by a man so loved and trusted as he was, was of the first importance to this country and it will ever remain a blot upon the present administration that it suffered him to be superseded at that critical time."

ALLIES CAPTURE TOWN OF COMBLES

German Stronghold Falls Before Attacks of French and British

TOWN FILLED WITH DEAD

Entente Troops Sweep in From Three Sides and Carry All Before Them

GREEK SITUATION TENSE

Combles, the pivotal point in the German line guarding the approach to Bapaume on the north and Peronne on the south, of the Somme front, has fallen before the terrible attacks of the French and British, the Germans fighting to the death of surrendering when there was no longer hope.

French and British troops swept in from three sides after their capture of Morval and Fregicourt, broke thru the German defenses, overran the town, and carried all before them. This place, with its marvelous subterranean passages and powerful fortifications, had been caught in the grip of the Entente Allies, who coming from the north and the south, had already advanced far beyond it and cut off communication with the rear except a narrow strip, which was covered by the allied guns. At the end of the fighting the town was filled with the bodies of Germans who had fallen fighting, the French official statement says.

Prior to the loss of Combles, the effect of the victories of the French and British armies in the capture of important strategic points on the previous day was reflected in the official communication issued by the German war office, which after describing briefly the great artillery bombardment of the Entente Allies lasting four days and the attack between the Aisne and the Somme admits that "the conquest of the villages on the line of Gueudecourt must be recognized," and adds "but before all we must think of our heroic troops who resisted the Anglo-French principal force and the massed employment of material of the whole world's war industry prepared during many months."

Both Thiepval at the northwest end of the British line, and the fortified town of Gueudecourt northwest of Lesbouefs also have fallen into the hands of the British. Around the former place, many hard battles have been fought since the inception of the great entente offensive on July 1. The British took the Zollern redoubt, a strongly fortified position lying between Thiepval and the bend in the British line at Curcellette today.

The French, likewise advanced beyond Fregicourt and captured the wood between that village and Morval and the greater part of the German fortified positions lying between this wood eastward across the Bethune road to the western portion of the St. Vaast wood, nipping off another portion of the German line of communication.

The German casualties in the fighting are declared by Paris to have been heavy, and in addition, during the two days fighting more than 1,200 Germans were made prisoner by the French, while the British took in excess of 1,500. Large quantities of booty also were taken by the Entente Allies.

While Petrograd continues silent with regard to the operations on the eastern front, both Berlin and Vienna tell of the repulse of strong Russian attacks in Volhynia, Galicia and the Carpathian mountain region.

On the Roumanian front the Austrians and Germans have been compelled to evacuate the Vulcan and Szurdok passes of the Transylvanian Alps in order to avoid a Roumanian encircling movement.

Sofia reports the capture of the Amzarah-Pervets line in Dobrudja from the Russians and Roumanians who retired northward.

Raid by aircraft of the Teutonic Allies since Saturday night have resulted in the deaths of 139 persons, 74 in England and 65 in Bucharest, Roumania.

The situation in Greece is still tense. Former Premier Venizelos on his way to the island of Crete, supposedly to take charge of an insurrectionary movement that has as its objective the forcing of the king and the government to agree to Greece's entry into the war on the side of the Entente Allies.

WILSON MAY MAKE SPEECHES IN NEW YORK

HOLDS CONFERENCE WITH JUDGE SAMUEL SEABURY

Executive Has Been Told It Is Imperative that the Democrats Carry New York—Concerted Efforts Will Be Made to Present Democratic Case to Voters.

Long Branch, N. J., Sept. 26.—As a result of a conference here tonight between President Wilson and Judge Samuel Seabury, Democratic candidate for governor of New York, the president is expected to make one or more speeches in New York within the next few weeks. No final arrangements have been made however.

The president has been told that it is imperative that the Democrats carry New York, and it is said concerted efforts will be made to present the Democratic case to New York voters.

William F. McCombs, Democratic candidate for United States senator, will see the president within the next few days. It will be the first conference between the two, since Mr. McCombs refused to accept a second term as chairman of the Democratic national committee. Mr. Wilson will do everything possible to secure Mr. McCombs' election, it was said.

In spite of the determination of Mr. Wilson to make only non-political speeches on his forthcoming trips away from Shadow Lawn, it appeared probable tonight that he would find means for getting his views on partisan questions before the country. His addresses here will be more of a political character than those in other places.

Elaborate arrangements are being made to turn the reception of the President Saturday to members of Young Men's Democratic clubs into a big political event. It will be the first time since his notification speech that the President has addressed a purely Democratic audience.

Up to the present Mr. Wilson has persistently refused to carry on any active campaign for reelection. He takes the position that it is undignified for a president to go out seeking votes.

Vance McCormick, chairman of the Democratic national committee will confer with the President tomorrow.

The President motored to Princeton this morning and voted in the New Jersey Democratic primaries in the old fire engine house, where he cast his ballot when head of Princeton University.

MRS. FUNK OPENS CAMPAIGN FOR INDEPENDENT VOTE FOR DEMOCRATS

SPRINGFIELD, Ill., Sept. 26.—Mrs. Antoinette Funk, state chairman of the Associated Progressive committee opened the campaign for the independent vote for the Democrats tonight with an attack on Col. Roosevelt and A. T. Hert, western campaign manager for the Republicans. Mrs. Funk made her plea to women in the audience, saying she regarded their vote as the uncertain quantity in the political situation in Illinois.

"Women are going to vote according to the simple light of their every day lives," she said. "They will judge parties and politics and conditions by the bearing of these things on the human relationship—the man, the woman, the child and all that touches on American home life and the conservation of its interests."

Mrs. Funk toured the state for Col. Roosevelt four years ago.

RELEASE WOMAN ON BOND

Chicago, Sept. 26.—Buda Godman, who is accused of having entrapped Edward R. West, a wealthy merchant here into a violation of the Mann white slave act and paying the way for three of her male confederates to extort \$15,000 from his was released on \$2,500 bond today after being questioned by investigators for the department of justice.

The woman convinced him, West told federal authorities, that she was an innocent convent girl and it was to save her that he finally met the demands of the blackmailers.

FIRE ALMOST WIPES VILLAGE OUT

Danville, Ill., Sept. 25.—Rileysburg, Ind., a village six miles southeast of Danville, was almost wiped out by fire today. An elevator, the Chicago & Eastern Illinois depot and several freight cars, a general store and several small buildings were consumed by the flames, which were driven by a stiff gale. Fire apparatus was sent from here to help save the balance of the town. Thousands of bushels of oats were consumed with the elevator.

FAIRBANKS SPEAKS AT OMAHA

Omaha, Neb., Sept. 26.—Democratic prosperity is due to war, while Republican prosperity grows out of the normal and peaceful industries of the people, declared Charles Warren Fairbanks, Republican nominee for Vice President, in his principal address in Omaha today. The Fairbanks party left at midnight for Colorado.

NEW YORK STRIKE SITUATION ACUTE

Labor Leaders Announce 25,000 Will Quit Their Places Today

MAYOR MEETS LEADERS

Union Officials Declare 450,- 000 Workers Will Be Out By End of the Week

LEGISLATORS VISIT WHITMAN

NEW YORK, Sept. 26.—With the announcement by labor leaders that approximately 25,000 union workers in various trades would quit their places tomorrow in aid of the striking car men here, it was believed tonight that the effort to tie up virtually all industries in Greater New York had reached an acute stage. The union officials declared that an additional 100,000 workers would strike Thursday and another 100,000 Friday, making a total of 450,000 out by the end of the week.

It was asserted that 6,000 brewery workers, 115,000 employees in the building trades and 250,000 members of the United Hebrew Trades were in favor of a sympathetic strike.

Twelve thousand teamsters also were reported ready to quit work Thursday or Friday. A meeting of the executive council of the building trades was called for Thursday to take final action after the business agents in Manhattan and the Bronx had voted for the strike.

Mayor Mitchell, whose efforts to settle the differences between the striking car men and the transit companies have failed, repeatedly summoned the labor leaders before him as soon as he heard of their plans.

After a meeting of the joint labor labor conference committee strikers were supplied with pamphlets for distribution throughout the city, in which attacks were made on the so-called Morgan and Rockefeller interests.

Rockefeller, Morgan and their associates control the transit of the city of New York, the pamphlet read, "and they also control the railroads, mines, industries and public utilities throughout the country, as well as most of the banks and nearly all the money."

Members of the state legislature from this city who called on Gov. Whitman late today and urged him to convene the senate and assembly in an extraordinary session to deal with the strike situation, submitted a draft of a proposed arbitration act.

This would provide a fine of \$5,000 and revocation of the license of a corporation that breaks an agreement to arbitrate and a fine against the union breaking such agreement, where the public interest is affected or likely to be affected. Gov. Whitman, it was said, promised to confer with the public service commission concerning the proposed measure.

OBTAIN LARGE SUM BY FRAUD

Des Moines, Ia., Sept. 26.—More than \$5,000 is believed to have been obtained fraudulently from various insurance companies by a gang operating in southern Iowa and northern Missouri, according to a statement made here today by State Fire Marshal Tracy, who has been cooperating with federal authorities on the case.

COMPLETES ARRANGEMENTS FOR RECEPTION OF WOMEN

Chicago, Sept. 26.—Miss Harriet E. Vittum, who is in charge of the Woman Voters' campaign at Western Republican headquarters, today completed arrangements for the reception of the party of women who will arrive in Chicago October 5 on the Woman's Transcontinental Hughes and Fairbanks special train.

To Let It Go
For a solid year we have been holding the property located at 1310 Lincoln avenue to get what we know it is worth, \$3,500.00. We have spent half that much in recent improvements, but we are tired of carrying it, and we will consider any reasonable offer. Go out and look it over and come in and talk to us about it. We can carry a very liberal loan, or take a smaller piece in trade. There are two acres of ground, more than 1-2 in pasture; an excellent barn, hen-house and yard, good fences, and an 8 room house in PERFECT condition, with three porches and a nice shady yard.

Decatur has the deserved reputation of being a progressive city but representatives of that city have just been in Springfield to investigate the system of street flushing used there. Jacksonville for months has had a street flusher in successful operation.

How About Fire Plugs.
A new traffic officer is very busy in Galesburg watching auto drivers in the business and residence districts of that city because violations of the traffic ordinance have been so flagrant. Accidents have occurred and the strict enforcement of the law has been found necessary. One frequent violation has been by auto drivers who leave cars standing close to fire hydrants. The traffic law requires that no car shall be stopped within fifteen feet of a hydrant and left standing. How many Jacksonville motorists ever give a thought to fire plugs when they leave cars standing at any point in the business district?

Plenty of Seats at Democratic Convention

According to unprejudiced observers the Democratic state conventions should be held in a smaller assembly hall than the state arsenal. The convention yesterday did not prove of enough interest to attract an audience anywhere near large enough to fill the arsenal. In fact, only half the space was occupied with chairs and there were plenty of vacant seats at that.

The Democrats made a strong play for the women's vote by placing an unequivocal suffrage plank in the platform and furthermore by the selection of a woman as a presidential elector at large. But the effort to corral the woman's vote will not be successful. The radical suffragists are thoroughly displeased with President Wilson's stand on the question and it is a safe prediction that a big majority of women will vote "as their husbands do." In this election and so Illinois normal Republican majority of 150,000 furnishes a pleasant thought.

LaFollette Strong But Erratic.
The Democrats are seeking to find great satisfaction because Senator LaFollette, of Wisconsin, is out in open commendation of Adamson law which was passed to avert the trainmen's strike. Democratic papers yesterday carried front page stories taken from LaFollette's Magazine and published together with a picture of the Wisconsin senator. This defense of the bill, and thus of the administration, is nothing of a surprise because LaFollette was the only Republican senator who voted in favor of the bill and it is quite natural that he should seek to come before his constituents and the public generally to defend his action.
The Wisconsin senator has many admirers who believe in his progressiveness, his sincerity and his ability. Many of these admirers do not believe that he is always right because he is sincere, and acknowledge

Rippling Rhymes
By WALT MASON

In the Fall.
In the fall Tired Father's fancy gravely turns to thoughts of coal, and he sheds nine kinds of briny as he sizes up his roll. He has thirty-seven dollars—two of them are plugged with zinc—and the outlook for the winter is extremely on the blink. And he hears the children clamor for a lot of winter duds and his wife makes requisition for some bacon and some spuds; and his lovely grown up daughter wants no poverty in her's—she must have a stylish bonnet and a costly set of furs, and the son will need some money as he studies for the bar; thirty-seven hard-earned dollars won't take Father very far. Father has so many problems that his hair has fallen out, yet it's safe to bet a kopeck on that patient, dauntless scout. Somehow he will buy the spuds, Susan Jane will have her sables, and the kids will have their duds; there'll be coal to feed the furnace, there'll be comfort in the shack while Tired Father fights his battles with eight stitches in his back.

DATES IN ILLINOIS HISTORY.
September 27, 1717—The French government separated the Illinois country from Canada and placed it under the jurisdiction of the province of Louisiana.

that his reasoning is not always sound and that a study of his whole course shows that he is an erratic. For that reason many of his staunchest admirers and supporters will not follow him in the present action. It was not because the public does not admire LaFollette that he failed to receive greater support in his candidacy for the Republican presidential nomination, but because the public as a whole does not have the feeling that a man of the LaFollette type—ready to adopt new ideas without proving their truth, and not always consistent—could safely be trusted with the high office of the presidency.

Speakership Talk Begins.
Already there is talk of the speakership contest when the next general assembly convenes and David T. Shanahan of Chicago is said to be a candidate to succeed himself. Lee O'Neill Browne of Ottawa is another candidate and will seek the position by a combination of wet votes. Mr. Shanahan, who was elected by a bipartisan vote, made an able and efficient officer. Browne while a very capable parliamentarian, is not fitted for the post. It is certainly to be hoped that the next general assembly will not spend week after week in deadlock over the question of a speaker. The spectacle of 1915 should not be repeated, where for many weeks absolutely nothing was accomplished by the legislature because of the speakership tussle.

Both wet and dry—for that's the way the contest is likely to line up—should be satisfied if they get a fair deal and certainly they will not give a fair deal to the state of Illinois if they waste week after week in strife over the speakership. Some organizing should be done before the assembly meets in order to get this matter lined up in such a way that soon after convening the members can get busy and perform the duties for which they were elected. The salaries paid assemblymen in Illinois are the largest in any state in the union with the exception of one or two states, and well paid legislators should give the state's business their thoughtful and earnest attention.

Court Issues Poje Decision
The city of Springfield has scored a victory by the order of Judge Creighton in the circuit court, who has dissolved the injunction issued some time ago preventing the city from using the poles of the Springfield Gas & Electric company. When the injunction was issued it was set forth that the city did not have the right to use the light company poles, and further that the light company had the exclusive right of using the Central Union Telephone company's poles. The court finding will now enable the Springfield municipal plant to extend its wiring systems much more rapidly.

The time will come in Jacksonville when there must be a new wire arrangement. The city light plant has wires on poles belonging to the Light company and the telephone companies and these companies are also making use of the city poles. The erection of so many different lines of poles in the city streets is a distinct detriment to the appearance of the streets, but the various lines of wires on the same poles increase the danger. Until the city puts its own wires in conduits under ground it cannot demand such service from the other companies. But eventually for beautification of the city and from a safety standpoint underground wiring must be the order.

WILL ERECT STORE BUILDING
T. A. Ebrey, who has been conducting a store at the corner of Edgmon and South Diamond streets for a number of years, has moved his store building and residence south on his lot and will erect a modern brick store building on the corner. The excavations made provide for a deep basement room and the brick work, for which E. E. Wells has the contract, probably will begin today. John Wolke has the general contract.

SCHOOL BUILDING FUMIGATED
The Lafayette school building was closed yesterday in order to permit some fumigation work. It was found Monday that another pupil from the school had scarlet fever and as a precautionary measure it was determined to fumigate all rooms. In accordance with this plan none of the children entered the rooms Tuesday morning but were sent home and instructed that the building would be reopened today. It is the expectation that all classes will be held today in accordance with the usual schedule.

SPECIAL SERVICE AT STATE STREET SUNDAY SCHOOL
State Street church Sunday school also observed rally day Sunday in addition to the churches previously mentioned. A special program of music was carried out and in other ways special interest was given to the exercises of the day. The State street Sunday school under the superintendency of T. M. Tomlinson is growing steadily and the classes have recently shown large increase in interest and attendance. Promotion exercises will take place next Sunday.

Dale Chambers, city clerk of East Moline, Ill., is making a visit with his grandparents, Mr. and Mrs. Meredith of Franklin. Saturday he called on friends in Jacksonville.

ILLINOIS FRESHMEN FIGHT WAY TO PLACE OF ANNUAL BANQUET

Many Members of Class Enjoy Dinner at Colonial Inn, Tho Many Difficulties Precede the Feast.

Five Illinois college freshmen found themselves on a dusty country road three miles west of Woodson Tuesday night and the fact that they made their return in time to take their places at the annual class banquet, held at the Colonial inn speaks well for the stuff of which I. C. '20 is made. The six were a contingent of the vanquished freshmen forces. The battle took place soon after the supper hour and the battle line extended from the gymnasium to West State street. Five sophomore students were made captive for a short time, in the course of the contest. When all had assembled and when Prof. P. F. Whisler, officer of the class, called the company to order at the completion of an excellent dinner, brief speeches were made by Decker, Furry, Conklin, Williams and by Miss Gwendolyn Clobes. The five captives were also heard from: Strickler, Tomlinson, Six, Valentine and Pride, and they related the incidents of the wild night auto ride in interesting manner.

Following are the officers of the class:
President—Charles Capps.
Secretary-treasurer—Miss Dorothy Rogerson.
Vice president—Victor Mellor.
The colors of the class are green and white.

The CAPP'S ALL WOOL \$15 SUITS are exceptional values. See the line at TOMLINSON'S.

HELSEBONIA

Mr. and Mrs. Clifford Mills, Miss Nellie Lashmet and Fritz Haskell will leave this morning for St. Louis and will make their return in a new car which Mr. Mills will bring to Winchester for delivery.

Miss Lyde Rhodes is very ill at her home on Depot street.

Mrs. George C. Brengle arrived home Monday night from a visit in Chicago and Galesburg.

Mrs. Kate Garrison has returned to her home in St. Louis after a visit with friends here.

Carl Smith returned Monday from Springfield where he has been visiting the family of Mrs. Essie McKee.

Edward Rohrig, who has been holding a closing out sale, has stored the remainder of his goods and announces that he will take a vacation from business duties for the present.

Members of the Woman's club busy selling tickets for the first number of the lecture course, an address by J. Adam Bede, Oct. 27.

Mr. and Mrs. Otis Hamilton and daughter, Miss Penton, Miss Kate Moore and Mrs. Elizabeth Taylor were Jacksonville visitors the first of the week.

TOURISTS FROM IOWA.

Mr. and Mrs. J. H. Williams, Mr. and Mrs. C. E. Williams and Mr. and Mrs. C. E. Florang, all of Burlington, Iowa, arrived in the city Monday evening from St. Louis after a somewhat extended tour of Missouri, Kansas and other western points. They put up at the Douglas and left yesterday morning in their Cadillac car for home.

RETURNS TO ANNAPOLIS.

Emmett Keating started last evening for Annapolis, Md., to begin his last year at the naval academy at that place. He says his class began with 365 members but has dwindled to 185. The course is severe and the government knows no favoritism and the student unable to keep up must drop out.

RECEIVES WIRING CONTRACT

J. C. Walsh has returned from Franklin where he received the contract for wiring the building of the Church of the Sacred Heart. Tuesday he completed the wiring of the pastoral residence.

See Those Four Loaves
ZEPHYR did make that many more than I've ever baked from a single sack of any other flour.
I counted every baking to see.
The grocer was right. ZEPHYR is worth more than his other kinds. For those four loaves makes ZEPHYR the most economical flour we can buy. It gives us 40c more bread per sack.
It is easy to get several more loaves from each sack of
ZEPHYR FLOUR
because its high gluten content gives it great absorptive qualities—makes it greedy for sponge. You use less flour, more water and stronger yeast. Isn't it worth while trying just one sack of ZEPHYR to prove this for yourself?

FEATURE OF SUPER-MERIT
MARY PICKFORD
—AS—
"POOR LITTLE PEPPINA"
in which the screen's foremost favorite again triumphs in an unusual characterization
Though her countless admirers do not require Mary Pickford to give any further proof of her amazing versatility, this supreme screen favorite renders another novel character-interpretation in the Famous Players Film Company's spectacular and thrilling production, "Poor Little Peppina." As Peppina, the boundless scope of Mary Pickford's art is illustrated in her delineation of the various roles of the child of wealthy Americans kidnapped by Italians and made to work in a Sicilian vineyard, a stowaway disguised as a boy, a newsie, a bootblack, a fruit vender, an employee of an opium den, a messenger boy, and finally the restored millionaire's daughter who comes into her own. With this diversity of atmosphere and interest, and with its many dramatic and amusing episodes, "Poor Little Peppina" will undoubtedly be accepted as one of Miss Pickford's foremost triumphs.

AMERICAN BANKERS NOW THROUGH KANSAS CITY

Plan to Place Currency on Gold and Federal Reserve Note Basis Discussed—Trust Company Resources Increase.

Kansas City, Mo., Sept. 26.—Immediate retirement of all greenbacks and a gradual withdrawal of national bank notes placing the currency of this country on a basis of gold coin and federal reserve notes, was discussed here tonight by bankers attending the conference of the national bank section of the American Bankers' association in annual convention. The discussion, provided for in the call for the meeting, followed addresses by John Skelton Williams, comptroller of the currency, and Frederick W. Hyde, of Jamestown, N. Y., president of the section.

The conference program was arranged to permit deliberation of a proposal to consolidate the office of the comptroller, created under the old national bank act and the federal reserve board provided for in the new reserve system.

The meeting tonight followed a day of continuous activity by the thousands of banker visitors here. The aggregate resources of the trust companies of the United States increased during the last year from \$6,300,000 to \$7,600,000, according to statements made to the convention by John W. Platten of New York. This is said to be the largest increase in any single year in the history of trust companies of the country.

GOVERNORS' ROAD CELEBRATION

Kenosha, Wis., Sept. 26.—The Sheridan road celebration today, for which preparations have been going forward for several months, had as one of its leading features an exchange of greetings between Governor Dunne of Illinois and Governor Philipp of Wisconsin, who met on the highway at the boundaries of Kenosha county. Following a short program of addresses the two executives were escorted to Kenosha by a large party of automobilists. The chief purpose of the celebration was to promote public interest in the project for a magnificent automobile highway to connect Chicago and Milwaukee.

WHY I AM FOR HUGHES

By A. O. Eberhart
Former Governor of Minnesota

National necessity requires the election of Charles E. Hughes as president of the United States.

While the broad answer of patriotic necessity meets the question of why Mr. Hughes should be elected, the outstanding problems which render such a result imperative are easily capitulated.

The outbreak of the European war confronted this country with new problems which developed the necessity of a foreign policy. They required firmness of action and definiteness of purpose. These problems were met by an administration supine, indifferent, inconsistent and woefully lacking in breadth of understanding. Instead of keeping us out of war, as its advocates claim, by announcing a program of hesitating timidity, it invited a situation which nearly drove us into the war in spite of the fact that the American people did not want to engage in it and that it spelled calamity for one side or the other of the European belligerents if we had engaged in it. As it is all our troubles are put off until tomorrow. Nothing is settled. The allied powers continue to haunt us or interfere with our mails and our commerce, while the submarine program has merely been postponed and not settled.

In Mexico the same fatuous policy without starting point and without terminal facilities, has resulted in a state of anarchy in which American lives and property have been sacrificed with wanton disregard of the inherent rights our nation possesses. The administration has waged peace more deadly than war, has played one bandit against another; has winked at the murder of Americans and the violation of women; remained undisturbed while our soldiers were massacred conducting an expedition so feebly conceived that it is a wonder that it has no more blood stains than are recorded at Parral and Carrizal.

The problem which confronts this country today—a problem that will have to be met within the next four years—is that of adjusting the United States of America with the rest of the world. To do this requires a policy of preparedness in order to insure peace. Mr. Wilson with his ear to the ground after having stood out against a program of preparedness at the time when its imperative necessity was recognized by all, suddenly discovered that the world was on fire, after the conflagration had waged for a year and demanded a preparedness program. The net result of his appeal was his shameful acquiescence in the Hay army bill which adds only a few soldiers to the regular army at the rate of 10,000 a year, an acquiescence which sounds supremely ironical in view of the recollection of the President's statement that the need for a greater force was "imperative and now." The naval preparedness bill, more elaborate in character, contains a clause which leaves it to the discretion of the President to determine whether or not the program shall be carried out. In view of Mr. Wilson's well-known attitude in the past, openly declared up to the time of his "too proud to fight" declaration at Philadelphia, there can be no doubt that he has agreed with the little army and little navy men of the South to abandon this policy as soon as possible.

Another form of preparedness which confronts the American people may well be termed industrial preparedness. Only the existence of the war, the increased demand which it has brought into existence, and the automatic tariff wall which it has built up has saved us from disaster. At the close of this war Europe will be economically and industrially organized to the highest power. With the tariff wall removed thru the instrumentality of the Underwood law, our farmers and our manufacturers will be subject to unrestricted competition, which we are not prepared to meet. This situation is of special interest to the farmers of the middle West and Northwest. War conditions have removed, for the present, the danger of Canadian competition, but with its 300,000,000 bushels of wheat, spells low wheat prices to the farmers of the Northwest, and the same conditions apply to all other farm products.

The public, in the next election, is to be given the choice of continuing this shifting, wabbling policy—a policy gilded with the literary style of its chief advocate and chief exponent, a policy that spells disaster to the industry of the country, peril to its laboring forces, and the absolute sacrifice of the position of America among the nations of the world, and its continued humiliation wherever stock is taken of national standing.

Opposed to this is the choice registered in the election of Charles E. Hughes, who stands for a broad-minded, statesmanlike interpretation of our foreign policy, and whose election insured industrial preparedness so that we may meet the competition that will be upon us at the close of the European war, and for

HAXTON CASE NOW ON TRIAL IN COUNTY COURT

Old Offender Accused of Liquor Selling—Charles Taylor Pleads Guilty and Arthur Ball Was Acquitted.

There was considerable legal maneuvering in the county court Tuesday afternoon when the case of Walter, alias, "Pete" Haxton was called for trial. Haxton is charged with selling liquor in local option territory. An indictment was returned against him by the last grand jury. In this indictment the foreman of the grand jury failed to place the names of the witnesses on the back of the indictment.

When the case was called Attorney John M. Butler and Paul Samuel made a motion to quash the indictment. Mr. Butler made the plea that the names of the witnesses were not upon the back of the indictment in accordance with the statute. Judge Thomson overruled the motion.

A motion was then made by Mr. Butler that he be allowed to place witnesses upon the stand and the court also overruled this motion. Mr. Butler was at this time presented with a list of witnesses by State's Attorney Hairgrove. He then asked for a bill of particulars and for a continuance. Both these were overruled.

It was evident from the argument of Haxton's attorneys that if a verdict of guilty is found the case will be appealed to the appellate court.

The trial of Haxton was entered upon Tuesday afternoon and his attorneys are John M. Butler and Paul Samuel, and the people's case is in the hands of State's Attorney William N. Hairgrove. Earlier in the day Arthur Ball was tried on a like charge and the jury found him not guilty. The trial of Charles Taylor also charged with bootlegging, was commenced and before much evidence had been taken the defendant decided to enter a plea of guilty and this was done. The court then ordered him committed to jail for fifteen days and to pay a fine of \$100. Payment of the fine will not be required unless Taylor is again found engaged in liquor selling.

In the trial of Arthur Ball the defendant was represented by W. W. Wright, who served by appointment of the court. The jury in this case included Theodore Arisman, James Coffee, A. C. Baldwin, Albert Rapsilber, Norman Billings, Robert Deaton, E. E. Mason, Charles McDonald, B. P. Goldsmith, W. M. Peebles, Henry Bergschneider, Herman Ommen.

In the Haxton case Walter Henderson and James McGowan were the first witnesses examined and both of them testified to making purchases of whisky from Haxton, on dates between September 1, 1915 and May 13, 1916. Henderson, according to his statement, was at the

Haxton house several times and McGowan made one purchase of whisky for which he testified that he paid Haxton \$1.50. Alfred Kale of Woodson was a witness and said that he had been at the Haxton house, but not between the dates mentioned.

The last witness of the afternoon was John Jordan, city patrolman, who lives not far from the Haxton house and testified as to the numerous visitors there and gave other facts to point circumstantially to the business in which Haxton has been engaged. The jurors trying this case are Elva Austin, Moses Topping, Jr., Martin Reiser, R. A. Phillips, Charles Flannagan, Charles McDonald, A. T. Kapsilber, Henry Bergschneider, B. P. Goldsmith, Norman Billings, E. E. Mason and E. H. Nicholson.

ILLINOIS NEWS NOTES

Decatur—Each of the six hundred Knights of Pythias lodges in Illinois will be represented at the annual session of the Illinois Grand Lodge, which is to open here October 15.

The Aged Pythians Home, erected at a cost of \$100,000 will be dedicated on the occasion, and the Home for Pythian Orphans, which already is established here, will be thrown open for inspection.

Cash prizes will be awarded winners in the drill contest between companies of the uniform rank. Knights of Pythias, and Temples of the Dramatic order, Knights of Khorassan.

The session will continue for two days. Special trains will be operated from all parts of the state.

Freeport.—The Confederation of County Medical Societies of Northern Illinois and Southern Wisconsin expects an attendance of at least 500 physicians and surgeons of the two states at its first general meeting to be held in this city September 26-27. This organization, recently formed, includes more than 50 cities and towns in northern Illinois and Southern Wisconsin, the Illinois counties being Winnebago, Carroll, Jo Daviess, Lee, Ogle, Whiteside, Boone, McHenry and Stephenson. A program has been arranged that will prove interesting, it is believed, embracing many clinics, papers and lectures. Among the noted men who will present subjects of interest to the profession are:

Drs. Arthur Dean Bevan, Professor of Surgery, Rush Medical College; E. Starr Judd of the Mayo Clinic, Rochester, Minn.; Bertram W. Supply, Professor of Medicine, Rush Medical College; E. C. Dudley, Professor of Gynaecology, Northwestern University, and W. A. Evans, Ex-Health Officer of Chicago, Professor of Sanitary Science, Northwestern University, Chicago.

Besides these, Drs. Louis Jermain, President Wisconsin State Medical Society; John Francis Herriek, President Iowa State Medical Society; W. L. Noble, President Illinois State Medical Society, and Dr. E. B. Cooley, President-Elect Iowa State Medical Society, will attend.

An evening meeting on the 26th is to be open to the public and will be marked by an address on "Infantile Paralysis" by Dr. W. A. Evans of Chicago. A banquet for the visiting doctors and their ladies also is to be a feature on Tuesday evening.

The officers of the association are: President William B. Peck, Freeport; Secretary, N. C. Phillips, Freeport; Doctors Emil Windmuller and Edward Gillespie, councillors of the Illinois State Medical Society will preside over the convention.

Urbana.—A car fully equipped to demonstrate home economics will tour the state under the auspices of the Household Science department of the University of Illinois, it is announced. The car will be ready for engagements October 1.

Two demonstrators will accompany the car, which is equipped with a gasoline engine for operating a washing machine, mangle, cream separator, vacuum cleaner, and ice cream freezer; an electric lighting system for private homes, house furnishings and a kitchen.

The car and its equipment provide sufficient material for demonstration work for a week. It is designed to reach housekeepers under conditions favorable to a thoughtful study of the equipment, and it is proposed to spend five days at a point. The general plan is to have the car open each morning for inspection, with two demonstrators to explain the equipment; to have demonstrations each afternoon; and a lecture in the evening at a suitable auditorium.

The university will pay the salaries of the demonstrators and furnish the exhibits, and the local communities must agree to advertise the car, pay the transportation, and provide living accommodations for the demonstrators.

Some of the subjects on which lectures will be given are the gasoline engine, housework, kitchen equipment, proper water system, household appliances, how to furnish a home, the laundry problem, heating and lighting systems and the business of housekeeping.

W. B. MOSEMAN TO GO TO QUINCY

W. B. Moseman who for some years has been manager of the Woolworth Co. 5 and 10 cent store in this city has been assigned to the management of the company's establishment in Quincy and will go at once to the discharge of his new duties. Mr. Moseman is a pleasant gentleman and during his residence in Jacksonville has made a number of friends who will much regret to see him leave and will wish him a pleasant experience in Quincy.

W. H. Gill, who comes here from Des Moines, is to be Mr. Moseman's successor and is already on the ground. He is a pleasant gentleman and will doubtless succeed well in the performance of his duties here.

ONLY THREE LEFT

When S. A. Fairbank with others from the city visited the Masonic lodge at Concord Mr. Fairbank examined the records and found that 45 years ago that night he had taken the last degree in Masonry and of those present at the ceremonies only himself, Robert Diggins and S. W. Nichols are left. The latter was an especial friend of Mr. Fairbank and had gone out to be present at the event. John True was master of the lodge at the time.

ENLARGEMENT IN WORLD'S AVAILABLE STOCK LOWERS WHEAT

Market Closes Heavy at 1 to 1 Cent Lower—Corn Prices Governed Largely by Action of Wheat.

Chicago, Sept. 26.—Substantial enlargement shown in the world's available stock of wheat led to a setback today in wheat prices here. The market closed heavy 1/2 to 1 cent lower with December at \$1.54 and May at \$1.54. Corn finished unchanged to 1/2 cent down, oats 1/2 to 1/4 cent and provisions at a decline of 1/2 to 3/4 cent. Notwithstanding that wheat developed fresh strength during the first half of the session, the market later was unable to resist the weight of offerings which were precipitated by announcement that the world supply was the largest ever known in this season. Leading Chicago interests were said to have been conspicuous in the short selling whereas Wall Street concerns were reported as having realized to a notable extent on holdings.

Previous to the setback in wheat prices, the market was bullish affected by news that British flour millers had resumed work and that the Argentine drought was becoming more serious.

Corn prices were governed largely by the action of wheat. Reports that the drought in Argentina was causing delay to planting and germination failed to have any lasting effect on the market here. Oats like wheat were bearishly influenced by reports of increasing stocks. At times, speculative sales were heavy. Provisions lacked support.

HOG PRICES WEAKEN DUE TO LARGE SUPPLY LEFT OVER UNSOLD

CHICAGO, Sept. 26.—Hog prices weakened today owing to a large supply left over last night unsold.

TRADING IN STOCKS PROCEEDS IN A MORE RATIONAL MANNER

Dealings Again Very Large and Broad—Greater Activity is Shown in the First and Final Hours.

New York, Sept. 26.—Trading in stocks today proceeded in a more orderly and rational manner, the sharp reversal of yesterday's final hour evidently having a sobering effect upon the more speculative element. Dealings were again very large and broad amounting to 1,565,000 shares making the seventeenth successive session in which sales have reached or far exceeded the million mark.

The greater activity was shown in the first and final hours. The strength of investment issues probably resulted from some statements of railway earnings issued in the course of the day. These included the annual report of the Southern Pacific company, showing a gain in net income of more than 50 per cent and the August returns of the Atchison, Topeka and Santa Fe railroad, which disclosed a net increase of \$1,622,000.

U. S. Steel was watched with special interest because of its abrupt decline from yesterday's record price of 129 to below 115.

Sugars were among the foremost issues with new records for Cubans, American, American Beet and Cuba Cane at gross advances of 2 to 4 points.

Coppers, equipments and motor, Stutz, providing proving the exception in the last named group were firm to strong and utilities, particularly the gas stocks were in better demand. Bonds were strong with a broad inquiry for high grade issues. Total sales par value \$5,585,000. U. S. bonds were unchanged on call.

THE EIGHT-HOUR DAY IN INDUSTRIES OTHER THAN RAILROADING.

The Railway Age Gazette, in an editorial in its current issue, takes up in his recent address to Congress that "the preponderant evidence of recent economic experience spoke for the eight-hour day," by citing statistics to show that the eight-hour day has no means been generally adopted in other industries even under conditions where it would be physically possible to do so, and that it does not have the sanction of general acceptance even in the trade union scale.

"Whatever economic justification there may be for an eight-hour work day in some kinds of work," the Railway Age Gazette says, "is no argument for its introduction in railway train service, where, as everyone knows, it is impossible to divide the work into fixed periods of time. Train employees must remain with their trains from one terminal to another; they cannot be released wherever they may happen to be at the expiration of a certain number of hours, and different kinds of trains naturally require different lengths of time to complete their runs. A local train with many stops to make for loading or unloading freight may take 10 or 11 hours to make a run that a passenger train will make in three hours and a through freight train in seven hours."

"But, as a matter of fact, everyone also knows that the eight-hour work day has by no means been generally adopted in other industries, even under conditions where it would be physically possible to do so. A bulletin recently issued by the United States Bureau of Labor statistics gives the hours of labor per day fixed by the union scales in 11 trades and in 7 cities in 32 states, a total of 5,583 scales or contractors. This shows that eight hours is prescribed day in only 2,992 or 53.7 per cent of the whole number of the cases reported. In 2,016 cases the prescribed working day is nine hours or over and in 81 cases it is ten hours or over. This would seem to demonstrate that the eight-hour working day does not have the sanction of general acceptance even in the trade union scales."

"The eleven trades mentioned are: Bakery trade, brewery and bottling house workmen; building trades, chauffeurs, teamsters and drivers, freight handlers, granite and stone trades, metal trades, mill work, printing and publishing, book and job, and printing and publishing, newspaper; and soft drink establishment employees."

"Other published reports of the same bureau show the hours of labor in eight different industries, covering the work of 317,005 employees, for 1913 and 1914. A compilation of these reports shows that the total only 48,259, or 2.6 per cent, work only 48 hours or less per week, while 36,426, or 11.5 per cent, work over 48 hours and less than 54 hours; 11,442 or 3.6 per cent, worked over 54 hours and less than 60 hours; 46,340 or 14.6 per cent, worked 60 hours, and 29,316, or 9.4 per cent, worked over 60 hours."

"The eight industries included in these reports are cotton manufacturing, wool manufacturing, silk manufacturing, men's clothing, boot and shoe industries, hosiery and underwear, iron and steel, and building and repairing steam railroad cars. These data are not for union labor alone, nor for non-union labor, but apply to the industries as a whole, including both union and non-union labor."

"The available state reports on the hours of labor also indicate that the eight-hour day is by no means an established feature of industry," the Railway Age Gazette says. "The statistics available would seem to indicate that the eight-hour day is a 'presumption' of the unions rather than of economic experience. In any event, in view of these facts, it seems peculiarly strange that any one should contend that the question of establishing either an eight-hour work day or an eight-hour pay day in train service is not an arbitrary one."

VISITED WARREN LEACH

WHY WOMEN WRITE LETTERS

To Lydia E. Pinkham Medicine Co.

Women who are well often ask "Are the letters which the Lydia E. Pinkham Medicine Co. are continually publishing, genuine?" "Are they truthful?" "Why do women write such letters?"

In answer we say that never have we published a fictitious letter or name. Never, knowingly, have we published an untruthful letter, or one without the full and written consent of the woman who wrote it.

The reason that thousands of women from all parts of the country write such grateful letters to the Lydia E. Pinkham Medicine Co. is that Lydia E. Pinkham's Vegetable Compound has brought health and happiness into their lives, once burdened with pain and suffering.

It has relieved women from some of the worst forms of female ills, from displacements, inflammation, ulceration, irregularities, nervousness, weakness, stomach troubles and from the blues.

It is impossible for any woman who is well and who has never suffered to realize how these poor, suffering women feel when restored to health; their keen desire to help other women who are suffering as they did.

ANOTHER AUTO ACCIDENT ADDED TO LONG LIST

Cohen and Hainsfurther Cars Met at
Cohen's Near H. H. Massey Farm—
Obstructed Vision

Another automobile accident was added to the list Tuesday evening when the car driven by Herman Cohen collided with another car driven by Miss Dorothy Hainsfurther of Winchester. The accident happened at the corner just south of the residence of H. H. Massey. According to statements made the cause of the accident was the very high weeds adjoining the tracts of land just opposite the residence of Mr. Massey. Mr. Cohen was driving south and Miss Hainsfurther west on the road which connects with the road on which the Cohen car was traveling. Fortunately none of the passengers were injured but both cars were considerably damaged and were taken to the Modern Garage for repairs. The Cohen car, recently purchased, is a McFarlan of special design. The left hind fender was crushed and the cap was knocked from the wheel below it. On the Hainsfurther car the front fender and wheel were damaged and the axle was bent. Mr. Cohen was accompanied by his mother and his sister, Miss Goldie. The Hainsfurther car carried Mrs. David Hainsfurther, Miss Dorothy Hainsfurther, Richard Hainsfurther and Mrs. Ralph Riggs.

H. H. Massey who saw the Cohen car going past his residence, said that it was not moving more than twenty miles an hour, and Miss Hainsfurther stated positively that she was not going beyond that speed. Therefore neither driver was to blame and the accident occurred because of the conditions along the roadside. That the high weeds there are a menace was proven just an hour after this collision when Mr. Massey who was returning after bringing some of the party to Jacksonville, was almost run down by a car which swung around the corner. The driver was unable to see Mr. Massey and it was only by a quick turn into the ditch that Mr. Massey escaped a collision.

LEWIS HICKS OF SCOTTVILLE SHOOT'S SELF WITH RIFLE

No Motive is Assigned For Deed at
Coroner's Inquest Tuesday Morning
—Funeral Thursday Forenoon.

Lewis Hicks, a farmer residing near Scottville, took his own life by shooting with a 22-calibre rifle Tuesday morning at 5:30 o'clock. No definite motive is known and there were rumors current of domestic trouble and financial embarrassment, these were not mentioned in the finding of the coroner's jury, which sat at th Hicks home Tuesday morning at 8 o'clock and returned a verdict of death by suicide. The jury was empaneled by Guy Wheeler, coroner of Macoupin county. Those who gave the testimony were Mrs. Hicks, wife of the deceased, Roy Hicks, A. E. Mansfield and Ralph Dugger.

Mr. Hicks had been negotiating for the purchase of the G. V. McNeely farm, north of Scottville. It is understood that the deal was to have been closed some time Tuesday.

Mr. Hicks leaves two sons, William Hicks, and Christopher Hicks, who has been employed in the Douglas hotel, this city. He had a number of friends in southern Morgan county and was a man generally well thought of.

Funeral services will be held Thursday forenoon at 11 o'clock at the family home near Scottville. Burial will be made in Franklin cemetery. The Rev. Ben Johnson of Springfield will be in charge of the services.

A Perfect Dependable, Economical, Wood
Coal and Gas Range

The Three-in-one Majestic

The combination coal, wood and gas Range without too much mechanism; no levers to turn or twist—to get out of whack or be mis-handled.

It is the simplicity of the Majestic Combination that has made it so popular. Not a thing to change in your oven—just turn on the gas. Can be attached to your own Majestic and heat your reservoir (if its on the back end of your range.)

\$7.50

This gas attachment on a new Range is \$7.50. On an old Range \$7.50 plus the time of attaching.

Renowned Gas Saver Burner

Mixes 40 to 50 volumes of air with one volume of Gas.

REMEMBER—only three gas burners used to heat the entire top, oven and reservoir, and they burn less gas than the top burners only of an ordinary gas Range. The same burner that heat the top heat the oven and reservoir.

SPRINGFIELD PRESBYTERY WILL HAVE EVANGELIST

Purpose is to Build up Any Churches
That Need Special Work—Minister from Arkansas Received.

Jacksonville delegates to the Springfield presbytery returned home Tuesday evening. Rev. M. R. Laird of Lincoln was the moderator and addresses made Monday night were of a very helpful kind. The session Tuesday was given over wholly to the transaction of business. About the most important action taken was in the adoption of a resolution providing for the securing of a presbyterial evangelist whose duty it will be to work with the weaker churches of the presbytery. In a number of towns and cities there are churches in somewhat weak condition and it will be the duty of the evangelist to give these churches his special attention.

Where for various reasons it does not seem advisable to re-establish a church, arrangements will probably be made for disposition of the property. The delegates were interested in a report made concerning the Kammerer Orphans' home located at Assumption on a 400-acre farm. A. M. Kenney is superintendent of the home and Dr. Penhallegon and Mr. Sothorn are delegates representing the Springfield presbytery, and two trustees will be chosen from the Mattoon presbytery.

These four, with the superintendent, will constitute the board of control. Rev. Mr. Wilson was received into the presbytery from Arkansas and was assigned to the church at Rock Creek near Petersburg. Various other matters of a routine character occupied the attention of the delegates.

SPECIALIST WILL VISIT WESTMINSTER

While Rev. E. B. Landis, pastor of Westminster church was at the sessions of the presbytery in Springfield, he arranged for a visit from Mr. Rossiter of Chicago, who will be present at the special rally day prayer service at Westminster tonight. At this service it is expected that there will be an unusually large attendance with special music and exercises out of the ordinary. Mr. Rossiter will remain in the city several days and confer with the various church boards. He has made some specialty in the management of church affairs and it was because of this fact that Mr. Landis arranged for his coming. It is understood that Mr. Rossiter is to visit other churches in the presbytery.

FORMER RESIDENT DIES IN MISSOURI

Information has been received here of the death of Frederick A. Miskell, who died at the home of his son, Joseph Miskell, in Centralia, Mo., after a long illness. The deceased, who was born near Columbus, Ohio, July 24, 1846, was for a great many years a resident of Morgan county. The family home was in the Nortonville neighborhood and the change of residence to Missouri was made seven years ago. Mr. Miskell was married in 1867 to Margaret E. McDonald, who died in 1881. Six children were born to them, three of whom are now deceased. The survivors are William F. of Morgan county; Joseph M. of Centralia, and Clarence M. of Henricks, Ohio. Mr. Miskell served in company H, 12th regiment of Ohio cavalry, during the war and saw active service for a long period. He was a man held in the highest esteem by all who knew him.

Y. M. C. A. NEWS

The membership committee will meet in the Y. M. C. A. this evening at 7:15. Walter Bellatti is chairman and definite plans will be made for the state membership campaign which will begin next Tuesday.

"What is the Young Men's Christian Association?" is a question that has been asked by many folks and yet not very satisfactorily answered. The following statements from C. K. Ober who is one of the early association men will help to get a clear understanding of the opportunity it offers:

"It is a high-grade, low-cost young men's organization—Christian but not sectarian. It is an athletic organization that does not use men to promote athletics, but uses athletics to develop men."

"It is a night school for men who work by day. It is a home for young men away from home. It helps young men not only to help themselves, but to help the other fellow. It is a place for a young man to find friends and to make himself a friend to the man that needs friends."

"It has no creed, but is controlled by representatives of churches. This keeps it a Christian organization, but prevents it from becoming another church."

"It has united in its management members of those churches that have found by experience that they can join without controversy or friction in the doing of religious work. This enables it to teach the Bible and to make practical use of Christian forces in helping young men. Its fellowship, club rooms, gymnasium, baths, classes and all other practical advantages are open to all young men, of all faiths or of no faith. It is not an experiment, but is the survivor of many experiments. While other young men's organizations, social, athletic, educational, ethical and even religious have failed, this has succeeded and is now in successful operation in over eight thousand places in North America and throughout the world."

Attention is again called to the open house at the Y. M. C. A. Monday evening at seven o'clock. There is a real good time in store as well as a sight seeing event.

SCRIMMAGE WORK AT ILLINOIS

Coach Harmon put the varsity squad thru its first scrimmage of the season on the Illinois field Tuesday afternoon. Two full teams were lined up and there were plenty of men on the side lines.

The same work will be gone thru again this afternoon. On Thursday afternoon signal work will be the order in preparation for the game with Blackburn Friday afternoon.

The question of quarter back is still unsolved. For a time it was hoped that Dick Reynolds would be back in school but Monday it was learned definitely that he would not return. This leaves Coach Harmon up in the air for a quarter back and it is not known at this time who will fill the position Friday.

ADVERTISED COMING FESTIVAL

Frank J. Waddell, T. M. Tomlinson, Stansfield Baldwin and J. K. Long, traveling in Mr. Long's Ford car, went to the H. J. Lemmon sale near Nortonville Tuesday. The special purpose of their trip was to advertise the Jacksonville fall festival which is to occur two weeks hence. The Jacksonville merchants found the people from Murrayville and Nortonville neighborhoods who assembled there very much interested in the event and frequent approval was heard of the plan of having the horse show in Central park where it will be so accessible to the public.

Ernest Clark of Liberty was a caller in the city yesterday.

PRAIRIE STREET PAVING BIDS RECEIVED TUESDAY

Low Figure Made by Standard Paving Co.—Firm Did Good Work on College Street.

The board of local improvement met Tuesday morning to receive bids for the paving of Prairie street with asphalt. The lowest bid was that of the Standard Paving company of Chicago, who figured \$27,419.64 on asphalt. The lowest bid was that of J. E. Bretz of Springfield, who offered to do the job for \$26.62 more than the Standard Paving company, his estimate being \$27,413.26. The third bidder was the Conway Construction company of Chicago and their bid was \$28,286.52.

The Standard Paving company's bid was \$2,196 below the estimate made by the public engineer. A ter the bids have been laid over the required time the contract will be awarded to the lowest bidder. Jacksonville people will be gratified to know that the Standard Paving company is again to work here, as it was this concern that laid the West College street pavement which has been pronounced one of the finest pieces of asphalt in this part of the state. If the Prairie street residents get a job equal to that done on College street they will have every reason to be satisfied and will certainly get the worth of their money.

THE NEW 8 CYLINDER CADILLAC HAS ARRIVED

S. W. Babb, local dealer, has just received the new 8 cylinder Cadillac, type 55. This car certainly presents a beautiful appearance with its longer wheel base and luxurious upholstery. The car is finished in royal Cadillac blue with the new design of head light and side lights in keeping with the coat of arms on the radiator. Every detail is worked out in a way which gives the Cadillac its individual distinction. This car is to be delivered at once to Mr. Albert Crum of Liberty. Mr. Babb expects another shipment at an early date.

STEERING GEAR FAILED TO WORK

The steering gear broke on Jeff Cleary's car as he was returning home Tuesday evening and when he tried to make the turn north at the Isalah Strawn farm the car failed to respond and went straight ahead over a ditch and thru a fence. No damage was done and Mr. Cleary notified Wheeler and Sorrells who went out and took the car to the garage for repairs.

Phil G. Wheeler of Chicago is in the city for a few days visit with relatives.

WILL ATTEND CONFERENCE

PROVISION FOR LARGE CROWDS AT OCTOBER HORSE SHOW

Seats for Several Thousand Will be Erected—Show is Community Enterprise.

That the Horse and Colt Show, to be held in connection with the Jacksonville fall festival and Home Coming, is to be more than a local affair is evidenced by the getting up of the entry list which was participated in by seven farmers from different localities surrounding Jacksonville.

The idea of the place to hold the show was not conceived until several farmers and business men consulted. Horsemen pronounce the proposed show ring an ideal arrangement and say that this feature will attract lots of entries that otherwise would not have entered their fine horses in show on the brick pavement.

Another noteworthy feature of the show will be the facilities for the accommodation of the crowd. Seats for several thousand will be provided in such a way that all may have a good view of the ring.

The Geo. S. Gay Hardware Company has loaned the committee enough American fence to make the enclosure and only horsemen and helpers will be admitted to the ring.

Several owners of stallions and jacks have offered special prizes for colts or yearlings from their horses. The judging of these special classes will begin Monday afternoon, October 9th at 1 o'clock, and the regular entry list will be started after that. The show on Tuesday will begin at 10 o'clock in the morning and will run all day.

The program will be interspersed with some entertainment in the form of free attractions and a band concert and after the show is over a parade of the ribbon horses will be headed by the band and the show formerly closed.
